RE: Appeal from USAC Administrator's Decision dated October 26, 2011
Billed Entity Number: 157107
Funding Request Number: 1620344
FCC Registration Number: 0011618048

Gentlemen:

The Arkansas Department of Information Systems (DIS) submits its appeal and requests that the FCC reverse the decision of the Schools and Libraries Division of USAC dated October 26, 2011, concerning: (1) the partial denial of the SPIN change request and (2) the service category change.

Specifically, DIS respectfully requests the FCC reverse the decision to partially fund FRN 1620344 and commit funds (\$38,018.32) for the months the contract was extended during the program year (2007). The contract extensions cover the remaining months as reflected in the original Operational SPIN change request. DIS further requests the FCC reverse the decision to change the service category of FRN 1620344 from Telecommunications Service to Basic Maintenance of Internal Connections.

In Program Year 2007, DIS submitted E-rate Application Number 549161 containing FRNs 1620344 and 1607369 for maintenance of leased routers. Because the term of the maintenance contract for the routers was due to expire but was to be extended during the Program Year, DIS followed State Master Contract process and submitted two funding requests. FRN 1607369 requested funding for the existing contract. FRN 1620344 requested funding for the contract extension under the dummy SPIN 143999999. The existing contract was extended. On August 18, 2008 and May 12, 2009 a request was sent to the Schools and Libraries Division requesting an Operational SPIN Change from the dummy SPIN (143999999) to the existing provider's SPIN (143022137).

During the review of the SPIN change request, DIS was asked to provide copies of contracts and contract extensions covering the full 2007 Program Year. DIS complied with the request and forwarded copies of related contracts. During the contract review, the SLD modified the lease contract end date to January 31, 2008. The original maintenance contract was dated November 18, 2002, schedule 001-3194200-002, and has been previously submitted. The amendment is dated July 25, 2005, and is attached hereto. (*Attachment A*). The invoice at Page 2 of Attachment A shows a three (3) year term which extends the maintenance obligations to an end date of July 24, 2008.

The Administrator's Decision states that the SPIN Change Request did not provide documentation extending the lease Contract Expiration Date to June 30, 2008, and changed the date to January 31,

FRN 1620344

2008. The preceding paragraph demonstrates that the maintenance contract was extended to July 24, 2008.

The Administrator's Decision also states that the SPIN change request did not comply with the Copan Order or failed to meet USAC minimum processing standards. DIS asserts that it provided the required documentation and that it complied with the Copan Order and USAC minimum processing standards.

Copan requires that the applicant certify that (1) the changes are allowed under state and local procurement rules and under the terms of the contract between the applicant and the service provider, and (2) the applicant has notified the original service provider of the intent to change. **DIS so certifies.** In its Letter of Appeal dated July 15, 2011, DIS complied with Copan by citing the state procurement law, (A.C.A 19-11-238, a copy of which is attached hereto as *Attachment F*) and by providing a copy of the lease contract and evidence that the original service provider was notified. (*Attachment D*). The first prong of Copan is met because state procurement law allows extensions of contracts for up to seven (7) years and the terms of the lease contract between DIS and the service provider allows changes, called Supplementary Schedules, at page 1, paragraph 2 of the contract. The second prong of Copan is met by evidence that the original service provider was notified of the intent to change. This is documented by the invoice at Page 2 of Attachment D which shows both SBC and AT&T. It should be noted that SBC acquired AT&T in November, 2005, and that the AT&T name was retained. That relationship also meets USAC minimum standards as outlined on the USAC website at SPIN Change Guidance concerning mergers and acquisitions.

The Administrator's Decision also stated that DIS sought support for Telecommunications services and that those services should have been treated as Basic Maintenance of Internal Connections and subject to Priority Two funding which was not sufficient in FY 2007 to provide a funding commitment to DIS. The maintenance sought here is not for internal connections, but is, instead, for Telecommunications Services for On-Premise Equipment.

As stated, the services are, in fact, maintenance for on-premise equipment and are specifically included in the Eligible Services List for FY 2007. The Eligible Services List states, in pertinent part, "Maintenance and technical support appropriate to maintain reliable operation is eligible for discount when provided as a component of an eligible telecommunications service" (at page 4), and "Maintenance and technical support appropriate to maintain reliable operation is eligible for discount when provided as a component of an eligible Internet access service" (at page 7).

During the SPIN change process for FRN 1620344, the service category was changed by SLD from Telecommunications Services On-Premise Equipment to Basic Maintenance of Internal Connections as it may not have been made clear that the funding request was for the maintenance of On-Premise Equipment.

However, the leased routers, contained in FRN 1577388 and FRN 1620335, and the maintenance at issue in this appeal, contained in FRN 1620344, meet all criteria for On-Premise Equipment. These criteria are thoroughly outlined on the USAC website and derive from the Tennessee Order (FCC 99-216, released August 11, 1999). Specifically:

1. The on-premise equipment will be provided by the same service provider that provides the eligible Telecommunications or Internet Access service of which it is a part.
 - The enclosed Leased Router Information for Program Year 2007 demonstrates at Columns 2, 6 and 10 that the connectivity, leased routers and maintenance are provided by the same service provider, Southwestern Bell Telephone Company. *(Attachment B)*
2. Responsibility for maintaining the equipment rests with the service provider and not the school or library.
 - The enclosed Leased Router Information for Program Year 2007 demonstrates at Column 10 that the maintenance for the equipment is provided by the service provider, Southwestern Bell Telephone Company. *(Attachment B)*
3. Ownership of the equipment will not transfer to the school or library in the future. If the relevant contract or lease includes an option to purchase the equipment, the school or library must not exercise this option.
 - The enclosed copy of the equipment lease, page 3 lines 19 and 20, contains the following statement: “The Equipment shall remain the sole and exclusive personal property of the lessor and not be deemed a fixture whether or not it becomes attached to any real property.” *(Attachment C)*
4. Upfront, capital charges of the on-premise equipment are less than 67% of total charges (recurring plus non-recurring) in the funding year.
 - Because this is a lease contract there are no upfront, capital charges for the On-Premise Equipment. Therefore the capitol charges are 0% of the total charges in the funding year *(Attachment D)*.
5. The equipment will not be used by the school or library for any purpose other than receipt of the eligible Telecommunications or Internet Access service of which it is a part.
 - While the demand for bandwidth in education is so great that there is no room for non-educational use, DIS voluntarily removes 1% from funding requests to cover this contingency. *(Attachment G)*. See also Attachment H, Item 5, of the supporting affidavit attached hereto, which states, “The equipment is not used by the schools and libraries for any purpose other than eligible Telecommunications and Internet Access Service. *(Attachment H)*
6. The Local Area Network of the school or library is functional without dependence on the equipment.
 - Enclosed is a diagram from the Schools and Libraries Division’s website that represents the network configuration. Also included is a diagram of an example of the typical school district configuration. *(Attachment E)*. See also Attachment H, Item 6, of the supporting affidavit attached hereto, which states, “The Local Area Network of the school or library is functional without dependence on the equipment.”

(Attachment H)

7. There is no contractual, technical, or other limitation that would prevent the service provider from using its network equipment, in part, for other customers.
 - o The enclosed copy of the equipment lease demonstrates that there is no contractual, technical, or other limitation that would prevent the service provider from using its network equipment, in part, for other customers. *(Attachment C)*. See also Attachment H, Item 7, which states, "There is no contractual, technical, or other limitation that would prevent the service provider from using its network equipment, in part, for other customers." *(Attachment H)*

In further support of the FRNs' inclusion of Telecommunications Services On-Premise-Equipment, it should be noted that DIS submitted Application Number 581833 for Basic Maintenance of Internal Connections in order to distinguish between Basic Maintenance of On-Premise Equipment and Basic Maintenance of Internal Connections.

For the above and foregoing reasons, the Administrator's Decision should be reversed.
